Profile Summary

Final-year Computer Science Engineering student (CGPA: 9.00/10) with a strong foundation in data analytics and software development. Hands-on experience in Python, SQL, Power BI, and React.js through academic and internship projects. Skilled in problem-solving and eager to apply technical expertise in real-world, collaborative environments.

Education

VIT Bhopal University, Bhopal, MP   *Oct 2022 – Present*
B.Tech in Computer Science Engineering
CGPA: 9.00/10

Geetanjali Senior Secondary School   *2021*
Class XII
Percentage: 92.6%

Projects

Personal Finance Management System

- Developed a web app to track income, expenses, and budgeting with user authentication.

- Implemented interactive charts and reports using React.js and Chart.js.

- Built backend APIs using Node.js and MongoDB for data management.

E-commerce Product Analytics Dashboard

- Built a dashboard to analyze product sales, customer behavior, and inventory trends.

- Automated data collection and preprocessing with Python and Pandas.

- Visualized key metrics using Power BI for strategic decisions.

Automated Resume Parsing Tool

- Created a Python-based NLP tool leveraging spaCy and regex to extract key resume data.

- Designed a scoring algorithm to match candidate skills with job requirements.

- Improved parsing accuracy with optimized Pandas pipelines.

Internship Experience

SDE Intern – Barun International   *Aug 2024 – Oct 2024*

- Automated routine reporting processes using Python.

- Collaborated with cross-functional teams in Agile environments.

- Supported data integration and quality checks for analytics projects.

Technical Skills

- **Data & Analytics:** Power BI, Excel, SQL, Pandas, NumPy

- **Programming:** Python, Java

- **Web Development:** React.js, HTML5, CSS3

Achievements & Certifications

- Gold Medalist (Top 1%) in NPTEL certification.

- Tata Group Data Visualization Virtual Internship — Forage (2025).

- Certificate, MERN Full Stack Development – Ethnus (2025)
